DETAILED ACTION

1. Drawings, filed on 05/04/2006 and 01/17/2008, are accepted.
2. Claims 2-4 and 6-9 are allowed. The following is an examiner's statement of reasons for allowance:

With respect to claims 2-4, the references of record neither anticipate nor render obvious the recited combination including the abnormal region judging map that sets the value corresponding to the $\sin \theta$ to a value in an x-coordinate and sets the value corresponding to the $\cos \theta$ to a value in a y-coordinate, and a region surrounded by a quadrangle α structured on a region constituted by an x-axis and y-axis orthogonal to each other around an origin in which both of the values in the x-coordinate and the y-coordinate are zero, and a quadrangle β smaller than the quadrangle α constituted around the origin forms a normal region.

With respect to claims 6-9, the references of record neither anticipate nor render obvious the recited combination including detecting the sin angle signal and the cos angle signal from the sin signal and cos signal, and outputting a rotation angle signal formed by a signal formed by the cos angle signal and a signal formed by the sin angle signal; and judging a size by two threshold values judging a level of the value of the sin angle signal.

Art Unit: 2819

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
